

BMW M5

Shown: European model

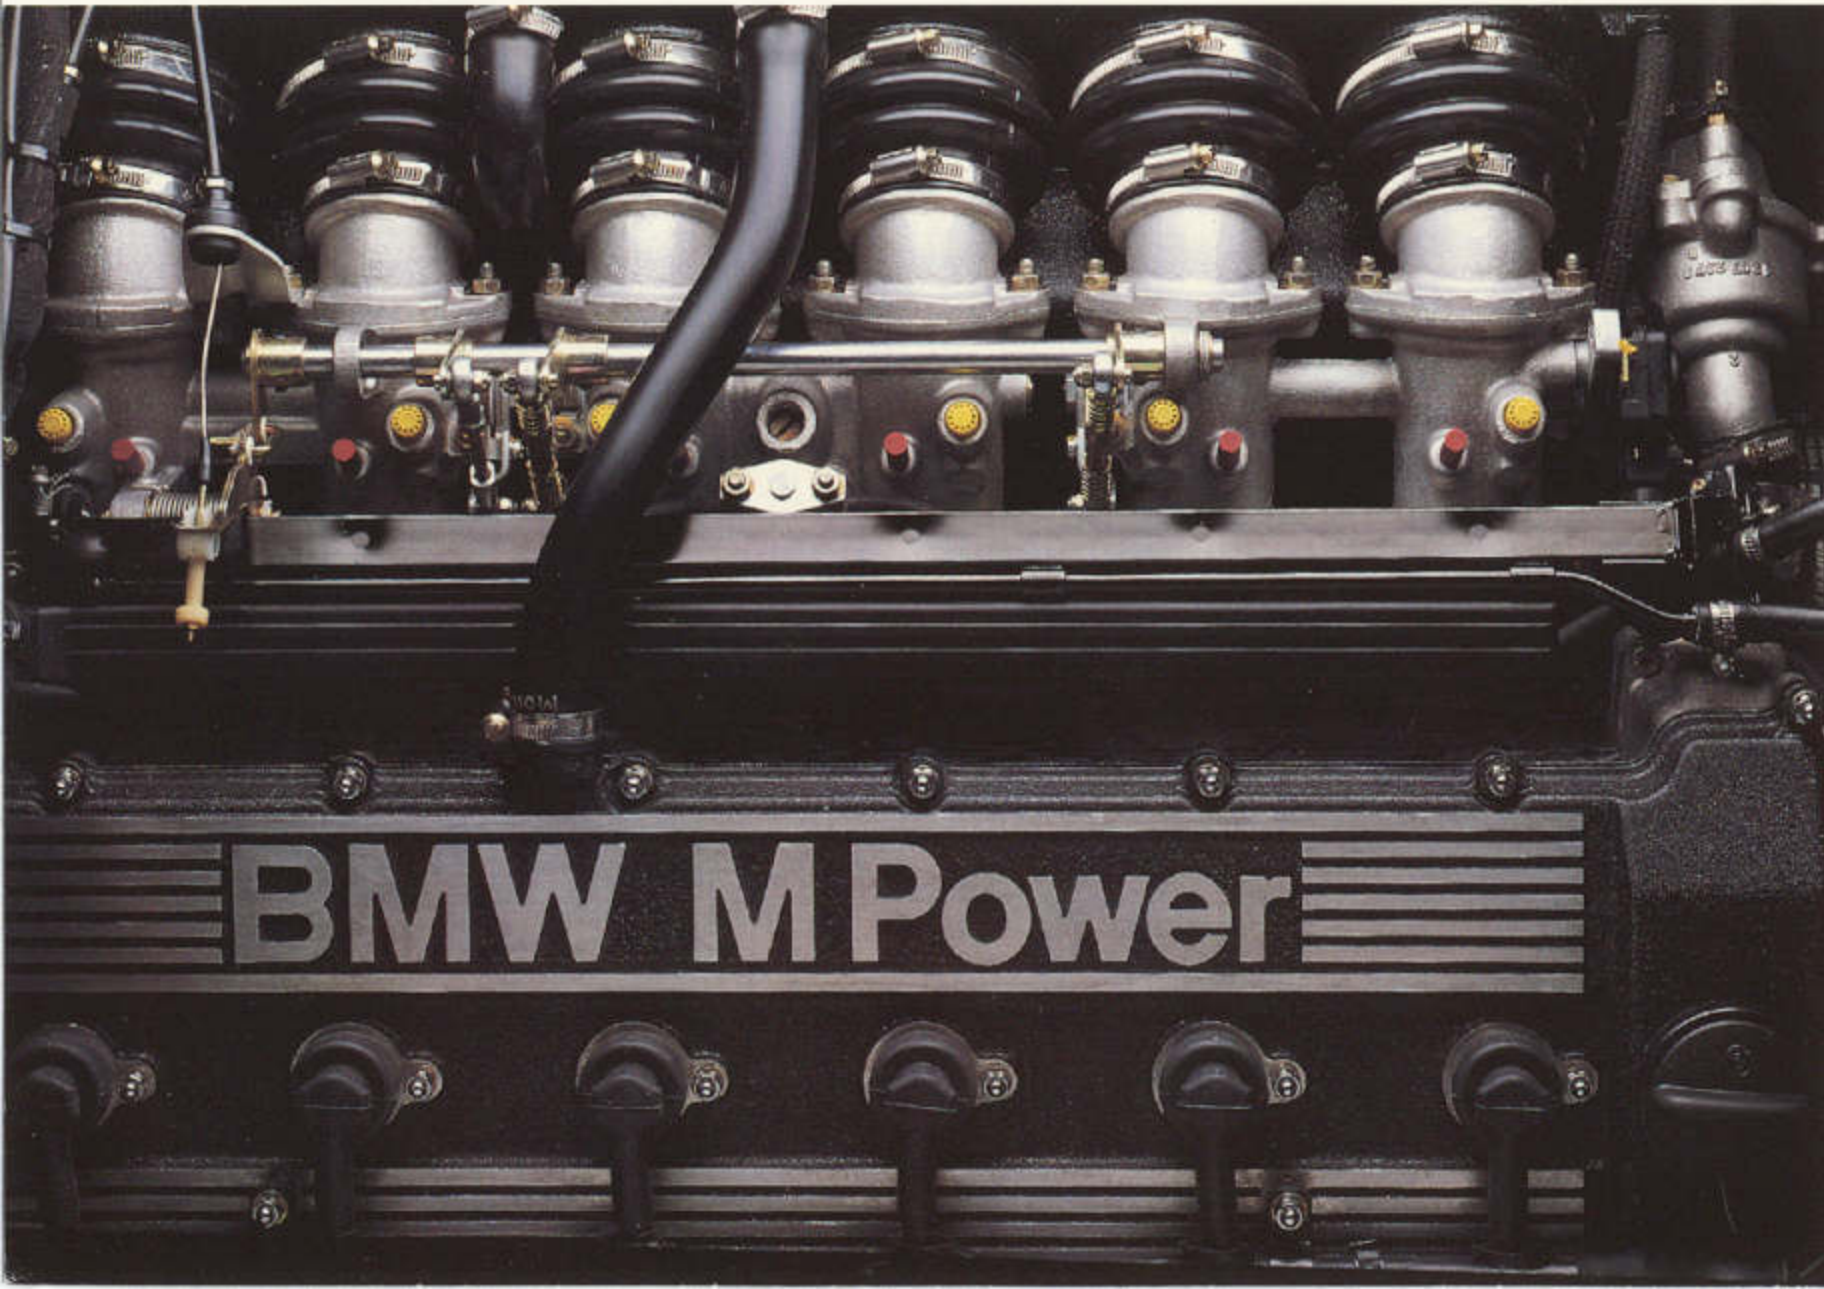

THE BMW M5: RELENTLESS POWER IN A REFINED SETTING.

The M5 is one of the world's most powerful sedans. Built by hand in very limited numbers, it is perhaps the world's most exclusive sports sedan.

The M5 clearly demonstrates the far reaches of automotive technological achievements today. Powered by a 6-cylinder, 24-valve engine that delivers 311 hp, this is a power car straight from the test track at Nürburgring.

The M5, though an all-out sports car, is an elegant and outstanding luxury sedan. The true connoisseur will recognize the subtle refinements in both interior and exterior styling. Carefully honed streamlining adds to high performance aerodynamics. Inside, the M5 combines sophistication and individual styling with the refined art of understated luxury.

The BMW M5 is a most impressive example of BMW's uncompromising philosophy: nothing but the best.
